Tradewinds

Set Sail with the Tradewinds Collection

Introducing the Tradewinds Collection, an occasional furniture line that captures the spirit of adventure and the charm of coastal living. Each piece in this collection is truly one-of-a-kind, featuring tops veneered with a stunning array of multiple woods, intricately designed to showcase a compass—a symbol of exploration and guidance. This unique blend of materials and design makes the Tradewinds Collection a perfect fit for any home with a coastal look, adding a touch of rustic elegance to your space.

Crafted from solid circular sawn White Oak wood, the Tradewinds Collection exudes both strength and character. The warm, earthy tones of the oak complement the intricate compass inlays, creating a harmonious balance between rustic and coastal aesthetics. These are not just occasional pieces; they are statement makers that bring a sense of history and craftsmanship into your home.
